Re: **Application No.: 10/628,100**

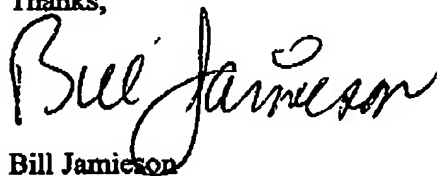

Thank you for your letter dated August 16, 2006. I understand that I can revive my application by following the steps outlined in your letter.

1. Is there a specific form for a "continuing application? *I believe I did send a rather detailed reply. Should this be repeated or simply send a cover letter?*
2. Fee of \$675.00 as per your letter.
3. Statement of unintentional delay. *I did enclose this statement as to the reason for any delay. Should this also be repeated?*
4. Is a terminal disclaimer required in my case?

In addition, is it once again necessary for me to send the amendments to the "Claims" section of my application? There should be several copies floating around by this time or would they have been destroyed? They did arrive at the Petitions Office by registered mail but may not have survived the confusion.

I would appreciate a little further guidance so that I only have to do this one more time and thus be allowed move along in the process.

Thanks,

Bill Jamieson
